Adding Condition Code 07	1

Overview

Agencies providing services not related to a patient’s terminal diagnosis for which they’ve been enrolled in hospice can bill Traditional Medicare Part A or Medicare Part B Outpatient Therapy. These services are billed on a separate UB-04 with a Condition Code 07 indicating “Treatment of Non-terminal Condition for Hospice.” The patient will need separate charts for Hospice services vs. services provided not related to the terminal illness, with the applicable insurance listed for each chart.

Process

Adding Condition Code 07

Go to **Patient > Admit/Maintain** or click the **Patient** button. Search for and select the patient’s home health or outpatient therapy chart number.

Click on the **Insurance** tab and select the Medicare PPS or Medicare Part B Outpatient Therapy insurance on the top half of the window.

Click on the **Billing Codes** tab on the lower half of the window.

Press the + sign to add a new row.

Type: Condition1

Code: enter “07”

Leave the Bill-Date blank so Condition Code 07 pulls to all Medicare PPS or Medicare Part B Outpatient Therapy claims for this patient admission.

The screenshot shows a software window titled "Patient: 131258 - Alswell, Lucky Admit: 1/1/2019 - Browse". The window has several tabs: Patient, Admit, Diagnosis, Assign, Insurance (selected), Certify, Authorize, Docs, Other, and Notes. Below the tabs is a table with the following data:

Insurance	Name	Start-Date	End-Date	Seq
60016	Medicare	1/1/2014	12/31/2099	1

Below this table, it says "Insurance is PPS/PDGM". There are also "+" and "-" buttons to the right of the table. Below this is another section with tabs: Guarantor Info, Bill Rates, and Bill Data (selected). Below the tabs is another table:

Type	Bill-Date	Code	Date	Amount	Note / Text
Condition1		07			

At the bottom of the window, there are buttons for Find, Save, Cancel, and Print, along with a help icon.
