Splitting HHA and PDN Visits	6

Overview

Colorado Medicaid Home Health services are billed on the UB04 form. PDN visits spanning midnight must be split into separate service detail lines for time prior to and after midnight before billing the claim. Home Health Aide (CNA) Acute and Long-Term visits are billed with different revenue codes for time up to an hour and time exceeding an hour of service. Both requirements are handled via the Charge Split feature.

Multiple visits for the same date and type of service should be combined into one detail line on the claim to prevent denials for duplicates. (Note, due to new EVV changes, this requirement may change).

It is recommended to create unique insurances for Acute, Long Term, and PDN services to handle different billing requirements, such as authorizations and payment rates. Long Term care always requires authorizations, but Acute may differ per MCO.

For detailed billing requirements visit the Colorado Medicaid website:

<https://www.colorado.gov/pacific/hcpf/billing-manuals>

Setup

Modalities

A separate modality needs to be setup for billing HHA Extended Time units.

Go to **File > File Maintenance > System** Settings and click on the Modality tab.

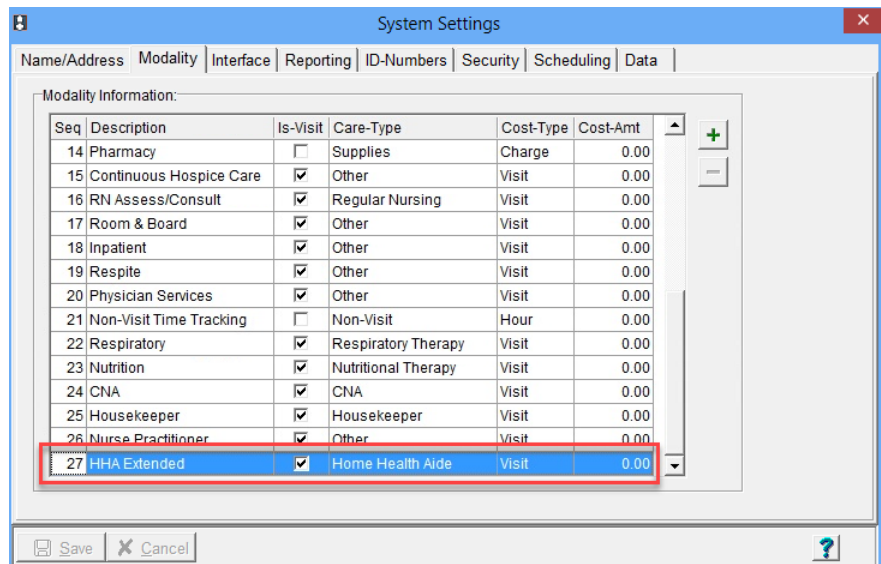

Press the + button to add a new row.

Description: HHA Extended

Is-Visit: checked

Care-Type: Home Health Aide

Cost Type: Visit

Create Acute Insurance Rev Type

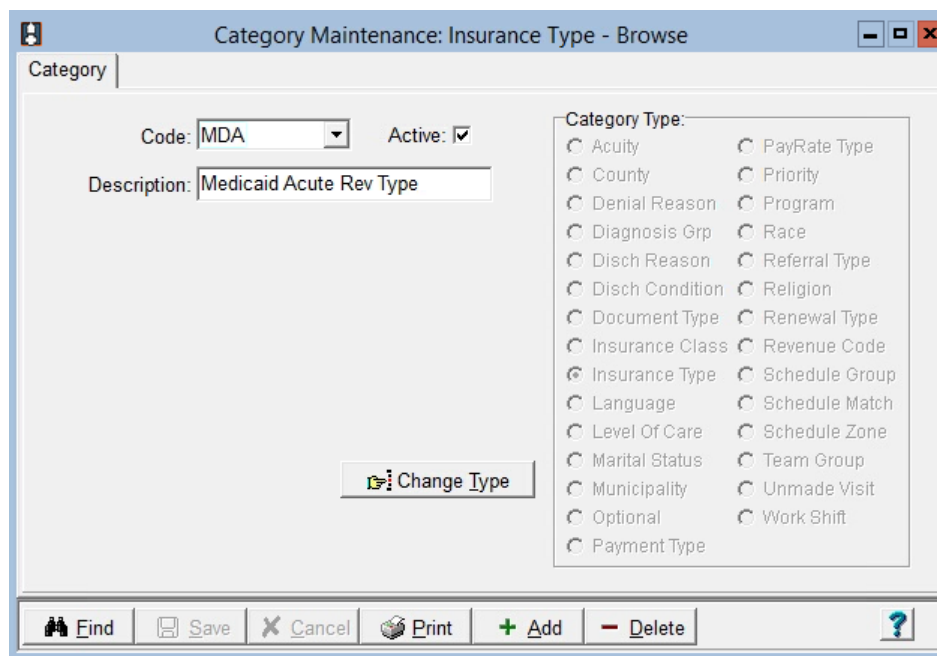

Since Acute and Long Term bill with different Revenue codes, create a unique Acute Insurance Revenue Type in Billing.

Go to **File > File Maintenance > Category**, press **Change Type** and set the Category Type to **Insurance Type**. Click in the Code field, press **Add** and enter the following:

Code: MDA

Description: Medicaid Acute Rev Type

If billing for PDN, press **Add** and create a code for MDPDN with a Description of Medicaid PDN Rev Type. The Long Term insurance will utilize the existing Medicaid Rev Type so a new one doesn't need to be added here.

Revenue/HCPSC/Modifiers

Go to **File>File Maintenance>Category**. Press **Change Type** and set the radio button to **Revenue Code**.

Press **Add** to create a new code combination.

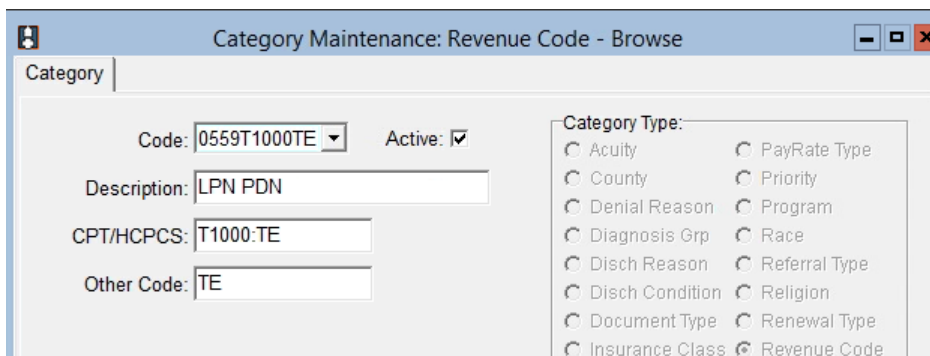

Enter the data in the corresponding fields as listed below, depending on services being provided (Acute, Long Term and/or PDN).

Table 1: Revenue/HCPSC codes

Revenue Code	Description	CPT/HCPSC	Other Code
0550	RN/LPN Acute

Charge Codes

Go to **File>File Maintenance>Charge Codes**. Press **Add** to create new HHA Extended Time and Uncomplicated Nursing charge codes along with a **Description** and **Modality**.

For HHA Extended, enter:

Charge Code: HHAEXT

Description: HHA Extended

Modality: HHA Extended

For Uncomplicated Nursing 1st Visit, enter:

Charge Code: RNVT1

Description: RN Brief 1st of Day

Modality: Skilled Nursing

For Uncomplicated Nursing Visit 2+, enter:

Charge code: RNVT2

Description: RN Brief 2nd or >

Modality: Skilled Nursing

On the **Bill-Rate tab**, enter the agency's Usual & Customary rate for the service in the **Gross** and **Net** fields with the applicable start date and the system end date of 12/31/2099. If the charge is Hourly, enter the Hourly rate with a basis of "Time."

On the **Revenue-Code tab**, enter the associated **Revenue Code** combination for the service. Add a row for each of the Medicaid Acute, Medicaid (for Long Term) and Medicaid PDN Rev Types with the applicable revenue code for each type.

Go back to the **Charge** tab to select the next code and repeat the steps for each charge code that your agency bills to Medicaid. When done, associate these codes to the forms via the Billing Codes library in Clinical (the Extended time charges do NOT need to be added in Clinical).

For existing charge codes your agency will be billing to Medicaid (SNADM, SNVT, PTVT, HHA, etc.), add or update the information on the **Bill-Rate tab** and **Revenue-Code tab** as was done for new charge codes above.

Insurances

Go to **File>File Maintenance>Entity**, press **Change Type** and set the radio button to **Insurance**. Double click in the Code field to search for and select the insurance. This section needs to be completed for each Colorado Medicaid and Medicaid MCO payer your agency will be billing. Insurances are created in Clinical via the Insurance library and billing setup gets completed in the Billing Module.

On the **Insurance** tab, set the following:

Insurance Type: Medicaid Acute Rev Type (for Acute insurances) or Medicaid Rev Type (for Long Term insurances) or Medicaid PDN Rev Type (for PDN insurances).

Financial Class: Medicaid Class

Bill Type: UB04

Payor/Submitter#: enter the clearinghouse Payor ID for this insurance.

Payor Type: 3-Medicaid Fee for Service (or 4-Medicaid HMO as appropriate for HMO payer)

Requires EVV: check this box if using Netsmart's Electronic Visit Verification solution.

Billing Unit Overrides: For Long-Term and Acute payers, set SN, PT, OT, ST, HHA and LPN modalities to "Units." Set the HHA Extended modality to "*1/2 Hours."

For PDN only, SN and LPN modalities should be set to "*Hrs Rounded" to bill units by totaling the time for the day and then rounding for same Rev code/dates of service or "*Hrs Round Up" to bill each visit with time rounded up to the next hour and then totaled. (NOTE: please contact Colorado Medicaid for confirmation on their billing requirements prior to setup).

Go to the **Ins-Rate** tab and add rates for charges being billed to Colorado Medicaid. EVV services must be added here if using Netsmart as your EVV solution. Otherwise, if billing the U&C rate from the Charge Code library it's not required. Review the [Colorado Medicaid Fee Schedule](#) for a list of current rates.

Claim Option Set

Go to **Billing > Electronic Claims** and select the Baseline Option set from **Option Set Selection** drop-down. Press **Options**, then **Copy** and copy it to a new unused option set number (enter Destination ID '330' for HH and '332' for PDN if available).

Close and reopen Billing > Electronic Claims. Select the newly created option set for Medicaid created in the step above, press **Options** and use the Locator drop-down to set the following:

2300.05 CLM*05 Type of Bill: set to 32S.

2300.43 CL1*03 Patient Status: Default w/Discharge Reason Status Code Override

2300.51 REF*G1 Treatment Authorization Edit: for Acute, set to Claim Created even if Treatment Authorization Missing. For Long Term and PDN, set to Error No Claim Created if Treatment Auth Missing.
